

NEVER MISS A MARKET MOVE WITH **ADAPT**

# NEVER MISS A MARKET MOVE WITH **ADAPT**

## The Proactive Power-Up for your RESEARCH Platform.

The UK mortgage market doesn't stand still. Between the time you source a product and the moment your client is ready to commit, the goalposts can move. Product withdrawals and criteria shifts can turn a 'perfect fit' into a declined application overnight.

ADAPT is the premium upgrade for Twenty7tec RESEARCH users that eliminates the application anxiety. It's a 24/7 surveillance tool that monitors your specific recommendations, so you don't have to.

## Turn Market Volatility into a Competitive Edge

While other advisers are manually checking lender portals or reacting to failed applications, ADAPT users are already on the phone with their clients with a solution in hand.

- **Protect Your Pipeline:** Stop losing deals to sudden product withdrawals. ADAPT alerts you the moment a recommended product changes, letting you pivot instantly.
- **Reclaim Your Day:** Save precious hours by removing the need for manual re-sourcing and product double-checking.
- **Build Bulletproof Trust:** Proactively contacting a client to say, "The market shifted this morning, but I've already found you the next best alternative," positions you as an indispensable expert.

Feature	Impact on your business
<b>Active Case Monitoring</b>	Automated surveillance of every recommendation you make until the point of submission, with up to 12 month's rolling coverage of recommendations.
<b>Automated Daily Digests</b>	We don't just tell you it changed; we show you exactly what changed (rate, fee, or criteria) via a convenient homepage dashboard so you can act fast.
<b>Enhanced Compliance</b>	Receive an email summary of any cases flagged for attention, ensuring your "to-do" list is prioritised by urgency.
<b>Fully-Informed Alerts</b>	A digital audit trail showing you've monitored the suitability of a product right up to the application.
